

SEAVIUM

The offshore market, finally in one place

SEAVIUM

THE OFFSHORE VESSEL MARKET STILL RUNS ON PHONE CALLS, SPREADSHEETS AND HIDDEN INFORMATION

We bring it all into one place - and let AI do the searching

Our mission: remove the opacity from the offshore market and make it fluid, digital and connected.

SEAVIUM

THE OFFSHORE MARKET TODAY

Finding the right vessel still takes days — and a dozen phone calls.

Fragmented data

specs, positions and ownership scattered across tools and inboxes.

Long broker chains

every intermediary adds cost, time and noise.

Poor availability visibility

you can't see which vessels are actually free, where, and when.

Ownership opacity

finding who really controls a vessel is slow and unreliable.

SEAVIUM

WITH SEAVIUM

One platform. Real-time. Every offshore vessel in reach.

Centralized vessel database

Direct vessel sourcing

Real-time availability

Ownership transparency

every spec, position and certificate in one place.

reach owners in one click, skip the chain.

see what's free, where, before anyone else.

know exactly who controls each vessel.

SEAVIUM

WHATEVER SIDE OF THE MARKET YOU'RE ON

OWNERS — Put your fleet in front of the whole market. Cut idle days, monitor competitors, win more fixtures.

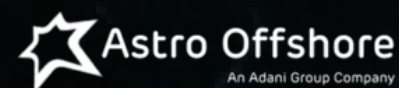

CHARTERERS — Find and secure the right vessel in minutes. Bypass competitors, compare instantly.

BROKERS — Digitalize your desk. Source faster, cover more enquiries, close more deals.

SATELLITE AIS MAP

20K+ Offshore Vessels

Losing hours searching for vessels?

→ Find the closest offshore vessels to your project in seconds using real-time satellite AIS tracking. Reduce mobilization time and fuel consumption.

SEAVIUM 24/7 ALERTS

Know first, act faster.

*Never miss a vessel opportunity again
Access off-market / early signals*

- Draw a zone on the map
Apply filters (type, DP, BP, specs...)
Get alerts when:
- A vessel enters
 - A vessel leaves
 - A vessel announces a port call

The screenshot shows the 'Multicat Med' alert configuration page. It includes a 'Configuration' sidebar on the left with settings for 'Last updated', 'Delivery', 'Batch search', and 'Batch evaluation'. The main area displays a 'Run History' table with columns for Type, Date, Inside, and a status icon. The table lists daily evaluations from April 7 to April 28, 2024.

Type	Date	Inside	Status
Daily	Apr 28, 2024, 2:00 AM	11	✓
Daily	Apr 25, 2024, 2:00 AM	11	✓
Daily	Apr 24, 2024, 2:00 AM	10	✓
Daily	Apr 23, 2024, 2:00 AM	10	✓
Daily	Apr 22, 2024, 2:00 AM	10	✓
Daily	Apr 21, 2024, 2:00 AM	10	✓
Daily	Apr 20, 2024, 2:00 AM	10	✓
Daily	Apr 19, 2024, 2:00 AM	10	✓
Daily	Apr 18, 2024, 2:00 AM	10	✓
Daily	Apr 17, 2024, 1:58 PM	10	✓
Initial snapshot	Apr 7, 2024, 9:18 AM	10	✓

The screenshot shows the 'Notifications' panel with a 'Mark all read' link. It lists three 'Area Alert Activity' notifications with details about vessel entries and exits.

Notification
Area Alert Activity Entered: DUTCH POWER, TSM KERMOR across 1 alert. 14h ago
Area Alert Activity Entered: VOE JARL across 1 alert. 1d ago
Area Alert Activity Entered: GEO OCEAN VI. Exited: BOKA GLACIER across 2 alerts.

SEAVIUM VESSEL PAGE

Everything at the same place

Fragmented vessel information...

→ Access all vessel data in one place.
Seavium centralizes AIS tracking, technical specifications, ownership details, partners integrations and operational insights into a single vessel page.

The screenshot shows the Seavium web application interface. On the left is a dark sidebar with a 'Platform' menu (Dashboard, Vessels, GeoFence, Route Planner, Sanctioned, Ports, My Vessels, Compare Vessels, Sonar Alpha, Charter requests, Backoffice) and a 'My Comparisons' section. The main content area is titled 'Vessels > JIF ARTEMIS' and features a 'Photo' of the vessel, a 'Data freshness' section with 'Fresh' status for AIS/Satellite, Intelligence, and Weather, and a 'Position' map of the Mediterranean. On the right, an 'Information' tab displays a table of vessel details.

Name	JIF ARTEMIS	DP Class	DP2

24/7 HUMAN SUPPORT

AI when you need speed.
Human experts when you need support.

Every Seavium subscription includes direct access to offshore chartering specialists who can support your team at any stage of a project.

- Market intelligence and vessel recommendations
- Commercial and contractual support
- Owner and client coordination
- Tender preparation and bid reviews
- Mobilization planning and cost optimization
- Emergency vessel sourcing
- Ongoing project assistance

Your offshore experts, on demand.

PRICING

From €490* / month
per company · per countries · unlimited seats

SHIPOWNERS

Avoid one idle day → year covered.

Put your fleet in front of the entire market and cut idle time. One offshore vessel sitting idle costs thousands per day avoiding a single idle day pays for your whole year.

CHARTERERS

One direct charter → year covered.

Reach the right vessel directly, cut the unnecessary layers, and avoid a costly wrong call. On a typical 25-day charter, the margin lost to a single extra intermediary already outweighs a full year.

SHIPBROKERS

One extra fixture → year covered.

Source faster and cover more enquiries. Closing one additional fixture (on average within 2 weeks) more than covers your annual subscription.

*Early partner pricing — limited to the first **300 companies**. Early adopters benefit from **lifetime reduced pricing**. Prices exclude taxes and include a **30% discount** for annual plans.
